

-  Low level planting
-  Cellular gravel filled grids
-  Grass

**Low level planting list:**

**Lavender (*Lavandula angustifolia*)** - Known for attracting bees and butterflies with its fragrant flowers.

**Heuchera (Coral Bells)** - Provides year-round interest with its foliage, beneficial to pollinators.

**Nepeta (Catmint)** - A favorite of bees, with long-lasting flowers.

**Hosta** - Perfect for shaded spots, these plants provide attractive foliage and are low-maintenance.

**Thyme (*Thymus vulgaris*)** - A herb that is a great nectar source for bees.

**Alchemilla mollis (Lady's Mantle)** - A perennial that supports bees and other beneficial insects.

**Geranium (Cranesbill)** - These attract pollinators and are excellent for ground cover.
