Town and Country Planning Act 1990
The Town and Country Planning (Development Management Procedure) (England)
Order 2015

Application No. H/24/98354

In pursuance of their powers under the above Act and in accordance with your application received on Wednesday 11 December 2024 the Council, as Local Planning Authority hereby **Permit** the following :

Description:	Single storey side and rear extensions following demolition of car port
Site:	18 SEA VIEW ESTATE, NETLEY ABBEY, SOUTHAMPTON, SO31 5BP

Subject to due compliance with the following conditions:

- 1 The development hereby permitted shall be implemented in accordance with the following plans numbered: Sheet 1 Rev 4, Sheet 2 Rev 4 and Sheet 3 Rev 4.

Reason: For the avoidance of doubt and in the interests of proper planning.

- 2 The development hereby permitted shall start no later than three years from the date of this decision.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 3 The materials to be used must match as closely as possible, in type, colour and texture those listed in the 'Materials Schedule' on the plan numbered: Sheet 3

Rev 4.

Reason: To ensure a satisfactory visual relationship of the new development to the existing.

- 4 Biodiversity enhancements shall be installed prior to first use of the development hereby approved in the form of a bat brick/box and a swift brick/box. The Bat Conservation Trust recommends installing a bat brick/box at least 4 m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. Swift nest boxes are best positioned under the eaves or on walls facing north, northeast or north-west out of direct sunlight, five metres above the ground, with clear adjacent airspace so swifts can access them in a high-speed direct flight.

Reason: To ensure a biodiversity enhancement in accordance with policy DM11 of the Eastleigh Local Plan (2016-2036)

Note to Applicant: In the unlikely event of any bats being found during demolition or construction, all work must stop immediately, and Natural England must be informed. Additional information is available on the Bat Conservation Trust website at <https://www.bats.org.uk/advice/im-working-on-a-building-with-bats/ive-found-a-bat-during-works>.

Note to Applicant: Any vegetation or structures to be removed to facilitate the development must be removed outside of bird nesting season (which is usually between the beginning of March and the end of August) or if this is not possible then only after being checked for nesting birds up to 24 hours before the start of works. If any active nests are found, work must stop, and a 5 m buffer must be erected around the nest to protect it from disturbance until after the birds have fledged and left the nest.

Note to Applicant: In accordance with paragraph 39 of the National Planning Policy Framework (December 2024), Eastleigh Borough Council takes a positive approach to the handling of development proposals so as to achieve, whenever possible, a positive outcome and to ensure all proposals are dealt with in a timely manner.

Yours faithfully
