To whom it my concern

My name is Mr Glyn Selmes I live at 56 Victoria road Netley Abbey Southampton.
I am writing to you to raise some concerns I have about the large tree in the rear garden of the property at 58 victoria road.

My first concern right now is the height of the tree. Currently it has the potential to damage my property and others around if it were to fall. This is obviously dependent on the tree health and potential strength of any storms. Another issue I have is that my house insurance is now possibly going to be affected by this. This is a recent thing as the tree was not an issue when I first moved in due to its then, smaller proportions .

I am also having a problem with the sheer amount of seeds the tree is producing. They are constantly falling during the summer months, so much so that I can not open any of the windows or back door to my property due to the ingress of seeds into my property. This problem is compounded for me personally as I suffer from hay-fever.

I am hoping you can appreciate how this is a problem not just for myself, but for everyone else in the surrounding area. I have no problem with the owners of the property of number 58 Victoria road and I have formed a good friendship with them and they are a welcome addition to the village.

I hope you find this short note helpful to understand the problem and I hope a sensible solution to this can be found.

Yours sincerely

Mr Glyn Selmes
