Thursday 24 April 2025

Town and Country Planning Act 1990
The Town and Country Planning (Development Management Procedure) (England)
Order 2015

Application No. H/25/98924

In pursuance of their powers under the above Act and in accordance with your application received on Wednesday 26 February 2025 the Council, as Local Planning Authority hereby **Permit** the following :

Description:	Two storey rear extension with addition of cladding, addition of front porch and roof lights with alterations to the fenestration, following demolition of rear conservatory and single storey extension.
Site:	MICHANN, ALBERT ROAD, HEDGE END, SOUTHAMPTON, SO30 0DJ

Subject to due compliance with the following conditions:

- 1 The development hereby permitted shall be implemented in accordance with the following plans numbered: 007, 003A, 006A, 000A, 004, 001

Reason: For the avoidance of doubt and in the interests of proper planning.

- 2 The development hereby permitted shall start no later than three years from the date of this decision.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 3 Notwithstanding the approved plans, no development shall start until details and samples of the materials to be used in the construction of the external surfaces of the development hereby permitted have been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details.

Reason: To ensure a satisfactory visual appearance in the interest of the amenities of the area.

- 4 The bat box to the eastern elevation and bird box to the northern elevation as indicated on the approved drawing APD/2402/P/004 (Feb 2025) should be incorporated into the proposed extension.

Reason: To provide biodiversity enhancements and for the protection of wildlife species.

Note to Applicant: In order to minimise the development's impact upon species and their habitats the following is recommended:

- All building materials to be stored on hard standing or on pallets, as far as possible from hedgerows, scrub or potential habitat.
- Any excavations must be covered at night or be fitted with a small animal escape ramp, and no fires can be lit on site.
- Waste must be stored in a skip and not be allowed to accumulate in piles which could be used by wildlife.
- Any animals found on site should not be handled but be allowed to move away to a place of safety on their own.

If any vegetation clearance is required to facilitate this proposal it must be done outside of bird nesting season (late February through August) or only after a check for nesting birds within 24 hours of the start of works.

Note to Applicant: In accordance with paragraph 38 of the National Planning Policy Framework (December 2023), Eastleigh Borough Council takes a positive approach to the handling of development proposals so as to achieve, whenever possible, a positive outcome and to ensure all proposals are dealt with in a timely manner.

Yours faithfully
