

Ecology response 6 5 25 for H/25/99144 19 FLOWERS CLOSE, HAMBLE-LE-RICE,
SOUTHAMPTON, SO31 4LU

Single storey rear extension to replace existing conservatory and addition of one frosted window to side elevation

Alex Stone

6/5/25

I have reviewed the additional photos and do not see any potential bat roost features.

Please could you add the following informative to the decision notice:

In the unlikely event of any bats being found during demolition or construction, all work must stop immediately, and Natural England must be called. Additional information is available on the Bat Conservation Trust website at <https://www.bats.org.uk/advice/im-working-on-a-building-with-bats/ive-found-a-bat-during-works>.

Biodiversity enhancements can be conditioned or agreed before determination.

There are records of bats in this area and the extension appears to attach to the roof. It is not clear whether the loft space would be affected. Further details are required.

To determine whether any surveys will be required I need to review close up photos taken in good light of all areas of the roof, fascia, soffits (standing next to building and looking upwards), flashings, hanging tiles, the elevations to be affected by the proposal and any potential gaps or openings.

The Bats and Buildings brochure from the Bat Conservation Trust (<https://cdn.bats.org.uk/uploads/pdf/Bats-and-Buildings.pdf?v=1634310101>) has a very good diagram to show places bats may use in buildings on page 3 of the brochure.

Photos of any areas of the garden affected by the proposal are also required.

Biodiversity enhancements will be required in accord with Local Plan policy DM 11 and NPPF (December 2024) paragraphs 187d and 192 b. A bat brick/box may be appropriate for this building.

The Bat Conservation Trust recommends installing a bat brick/box at least 4 m above the ground, away from artificial light sources, sheltered from strong winds and exposed to the sun for part of the day, facing south, south-east or south-west. ([https://www.bats.org.uk/our-work > putting-up-your-box](https://www.bats.org.uk/our-work/putting-up-your-box))
