Subject: RE: [DC/25/99302] GROUND FLOOR, 103 BOURNEMOUTH ROAD, CHANDLER'S FORD, EASTLEIGH, SO53 3AE -

Good afternoon Rebecca,

Further of reviewing the new information please see below.

Condition 4 - Contaminated land

After reviewing the watching brief letter produced by HESI (reference CSG / 18795 dated 22/03/2024). The letter confirms that no evidence of contamination was encountered during the construction works, with photographic evidence to support this statement; therefore, I am satisfied with the information provided and can recommend the discharge of condition 4.

Condition 24 - Noise Management Plan

After reviewing KR Associates Noise Management Plan dated 12th May 2025 version 1.4 reference KR07367 I have no further comments and condition 24 can be discharge.

Thank you

Andre
