Hello Liz,

Thank you for your email.

The changes to the drainage arrangement are due to a new site layout. The previous strategy produced by PFA has been followed in terms of using the same outfall locations and aligning with the previously agreed design parameters.

The impermeable areas are shown on the attached.

Kind regards,

Clare Whitehead BA(Hons) MA MRTPI (She/Her)

Dear Clare

Thank you for you email and the attached details. HCC Flood & Water also requested a short note detailing the changes and demonstrating compliance with the previously agreed drainage parameters. Please could you also provide this supporting information.

Many thanks
Liz
