

To Eastleigh Council
c/o Gregg Chapman

I'm writing concerning the extension at number 30, It is far too big, apparently its going to be a care home, which does not seem very feasible, as the front door step, ~~it~~ would be too high for disabled and/or wheelchair user to negotiate and I don't know what the interior of the house looks like, but I would not to climb two flights of stairs and possible on site carers.

And It could be turned into a HMO at some point in the future, which would include having lots of family members and friends going

in and out of the property all
hours and noise.

There would be nowhere to park

Yours faithfully

A concerned
