

PLANNING APPLICATION (F/25/99109)

PETITION AGAINST PLANNING PERMISSION FOR COMMERCIAL GYM AT NO. 1 GATCOMBE GARDENS

We, the undersigned residents and concerned members of the local community, oppose the planning application for a commercial gym at No. 1 Gatcombe Gardens.

The application misleadingly states the gym is for 1-to-1 personal training only. In reality, group sessions have been held regularly, directly contradicting the claims made in the planning submission. This activity has caused ongoing noise disturbances that have disrupted the peace and quiet of our residential area and impacted the daily lives of nearby residents.

In addition, the increased traffic and on-street parking have restricted access into the close, creating serious safety concerns for emergency vehicles and causing inconvenience for residents and visitors.

We believe a commercial operation of this nature is wholly inappropriate for a quiet residential street. We respectfully urge the local planning authority to reject this application and ensure that the use of the premises reflects the character and needs of the surrounding community.
