Subject: FW: Planning App Consultation Request Internal X/25/99588

Dear Rebecca,

In regards to the Public Art element of the apartment blocks within application X/25/99588.

I am willing to oversee this scheme with the support of the One Horton Heath Public Art Steering Group and using the agreed developer's contributions for public art.

The artist has developed a proposal which aligns with the Council's Public Art Strategy and common themes in Local Area Visions for Public Art; raising awareness and appreciation of biodiversity and engaging the local community during the process of developing the artwork.

Kind regards,
Vickie
