For attention of Mr Chapman

Dear Sirs

Re: PN/25/99280 At DRUMMOND ROAD, HEDGE END

Prior approval application for the installation of a 20m Streetworks monopole, 2No.0.3m dishes, and 6No antennae at 16.32m and 19.52m. Additionally, a GPS node will be installed on top of the monopole, along with four cabinets at ground base level and other ancillary equipment.

In regard to application PN/25/99280, a holding objection is made in regard to the above mentioned application from a Highway perspective, subject to additional drawings being received.

The proposed location of the mast is shown on drawing 30000190_ELH05_27873_SO1390_M001, titled '@002 Site Location Plan'. Unfortunately however the exact location of the mast and associated equipment is not clearly defined, simply showing a red edged block which completely obstructs the foot/cycleway adjacent to a vehicle access.

A drawing should be provided for assessment, showing exactly what equipment is to be placed in the locality, and exactly where this will be.

The applicant should note that given the location adjacent to a vehicle access and a community facility, it would be anticipated that both pedestrian and cycle flows are anticipated to be relatively high, and any equipment should not restrict the width of the foot/cycleway at this location for highway safety reasons.

It may be that the equipment is located to the northern side of the fence that runs along the back edge of the footway, as appears to be shown in Figure 3

Deputy Chief Executive and Director of Hampshire 2050
Gary Westbrook

of the submitted Planning Statement, and if this is the case, this would be acceptable as it generates no negative or constraining impact on the highway.

If the updated drawings can be submitted, then a re-assessment can be undertaken accordingly.

Yours faithfully,

Matt Grantham
