Subject: F/24/98678 - Land East of Chickenhall Lane

Hi Rebecca,

I have now had the opportunity to review the daylight study dated of 24th July 2025.

It was questioned whether all north facing habitable rooms of the proposed scheme would have adequate levels of natural daylight, particularly the ones at ground floor level.

The applicant agreed to produce a partial daylight study of at least two bedrooms on a potentially bad location and apparently the agreed rooms meet the minimum recommendation and are considered well-lit.

Therefore, the information submitted by the applicant has overcome this concern raised on my previous consultation.

Kind regards
Marta
