

Planning Application F/25/99153
Land off Brook Lane, Broadoak, Botley, SO30 2ER

Representee	Address	Comments
Peter Mitchell	12 BAILEY CLOSE BOTLEY SOUTHAMPTON SO30 2TW	I will be objection to this development 'if' the granting of this planning application eases the ability to apply for further properties to be built on the same land in the future, either by the current owner or due to sale of all or some of the land to a property developer. Brook Lane is one of the few relatively undeveloped areas around Botley and Hedge End, where there is currently a huge amount of building developments removing green space. I object to the idea that this area will become developed as well.
Alan Swinger	23 TAMELLA ROAD BOTLEY SOUTHAMPTON SO30 2NY	This land is part of the strategic gap between Hedge End and Botley and should not be built on. We've seen deer, foxes and lots of other wildlife on this land and this development will displace these animals.
Colin Mercer	SHAPWICK BROOK LANE BOTLEY SOUTHAMPTON SO30 2ER	This land lies in the highest protected capacity as part of the Strategic gap between Botley and Hedge End. If this application were to be accepted then it would form a precedent for many more such applications and nullifythe status of all strategic gaps
