

Public Right of Way Links - Knowle Hill

Illustrative Footpath Details - Not to scale

Timber waymarkers identifying the entrance points to the PROW. Design of waymarkers to be submitted with landscaping plans, but of a similar design to the image below.

Depending on location path this will be No Dig construction.

Posts to be 1.5m high and min 150mm x 150mm in diameter.

Indicative bin location - 1 no. bin to be located at each PROW link. Bin detail to be provided as part of the Landscaping Condition.

Hoggin path with timber edging

Existing barbed wire boundary to be replaced with hedgerow to create a naturalised buffer from the PROW to the site.
