Subject: RE: Planning Application Consultation Request DC/25/100210

Good morning Ms. Altman,

Thank you for consulting Hampshire County Council's Minerals and Waste Policy Team on the below application.

Having reviewed the documents submitted we agree that the site is not a viable opportunity for the prior extraction of minerals. However, the Minerals Evaluation Letter concludes that the incidental extraction of mineral resources may occur as part of the development.

As such, before we can agree to the discharge of the mineral condition, we request that a statement is provided outlining a method for ensuring that minerals that can be viably recovered during the development operations are recovered and put to beneficial use and that the tonnage of recovered minerals is reported to ourselves, as the MPA.

Such statements are often included in the Construction Environment Management Plan (CEMP) or similar. Examples can be provided on request.

If you or the applicant have any questions, please don't hesitate to contact us.

Kind regards

Andy Denton *BSc. (Hons) MSc. AssocRTPI*
