

Representation from 33 Ferndale with photographs

To Rebecca Altman,

My name is Bethany Hamlen and I live at number 33 Ferndale, my garden backs on the area where the planning is taking place. I have many concerns over this I recently purchased this property and was told before purchase was complete that there is no planning for house or flats if I knew this was going to happen so soon I would never have purchased the property. I've looked at the planning with 3/4 story buildings which would look straight in to my garden and house meaning my privacy would be taken away from me. (I have attached images of my current view from my window) I'm not at all in agreement with this. If the plans get accept I would be willing to take this further to save my privacy. Also along side this the noise that would be coming from the construction would be a massive issue myself and partner work all different hours meaning needing to sleep during the day again this is going to cause distress to us. We live in a nice quiet area with a nice view of land I just don't understand why someone would want to build there. It's going to cause so much stress and upset to everyone in ferndale.

I would like to be kept updated on this. And want to know what your views are on having our privacy taken away?

Also the traffic this is going to cause will be horrendous - this area is already built up and traffic can be a nightmare but to now add another 192 houses and apartments will be ridiculous.

Regards,
Bethany Hamlen
