Dear Ms Altman,

Planning Application Consultation Request F/25/100141 Kings Copse Avenue

Thank you for your consultation. I would draw your attention to the submitted archaeological statement, which I would endorse to you. The statement concludes that “it will be necessary to provide further information about the potential of the site from field observations in order to draw up a scheme to mitigate the impact of development on any below ground archaeological deposits.” This it refers to as a scheme of evaluation. I would agree. I do not anticipate that archaeological matters will be overriding and on that basis I believe that any archaeological provision can be secured by use of archaeological conditions.

I recommend that an archaeological condition is attached to any planning permission which might be issued to secure the proposed archaeological evaluation. I also recommend that an archaeological condition is attached to any planning permission to secure a programme of archaeological mitigation based on the results of the archaeological evaluation.

Yours sincerely

David Hopkins
