

Eastleigh Borough Council Tree Preservation Order and Conservation Area Assessment Form

Application Number	T/25/100196				
Surveyor	IF				
Address	19 BLUESTAR GARDENS, HEDGE END, SOUTHAMPTON, SO30 2UZ				
Proposed work	2no. Oak (T1 & T2) - Reduce lateral branches across the whole of both trees by up to 2m, limiting cuts to 75mm. This is to restore a natural shape of both trees, manage their size and maintain their health within a restricted space.				
Assessment Date	18/11/2025				
Officer comments	TPO 414-E G2 2 no. Oak, confirmed 08/05/1999 Met the owner on site. T1 and T2 are 2 medium sized oak trees provide high public amenity within the close. The trees appear healthy. Currently, there is an adequate distance from both properties. The owner would like to abate any nuisance caused to their neighbours at number 21. They have agreed that a full crown reduction is not required at the moment. Instead, they will have deadwood removed (which does not require planning permission); also, 1 lowest branch on the south-western side of T1 can be cut back to suitable growth point to remove the overhang over the neighbours' shed and garden. The proposed 2m all around reduction is deemed unjustified currently.
