Subject: X/25/100420 BARCLAYS HOUSE, 20-24 UPPER MARKET STREET, EASTLEIGH, SO50 9FD -Variation of the Condition 2 (Approved Drawings)

Follow Up Flag: Follow up
Flag Status: Flagged

Good afternoon Gary,

Thank you for consulting the Pollution Team on the application reference X/25/100420 for the variation of Condition 7 of approved planning application F/24/97665 for the Installation of new windows and doors to side and rear elevations and mansard roof, and rooflight windows to rear flat roof at BARCLAYS HOUSE, 20-24 UPPER MARKET STREET, EASTLEIGH, SO50 9FD.

I reviewed the updated proposed elevation drawing referenced (PL)_501 dated 06/11/24 and the information regarding the proposed Installation of new windows and doors. Important to state that the side windows openings facing the car park are already in place before the variation of this condition.

In general, I have no concerns regarding the new windows and doors my only comment is that the new windows and doors must follow the same glazing specifications as recommended in the original noise report (Clarke Saunders reference AS13600.240719.NIA dated July 2024) and the requirement for secondary glazing.

Thank you

Andre
