

Eastleigh Borough Council Tree Preservation Order and Conservation Area Assessment Form

Application Number	T/25/100633					
Surveyor	IF					
Address	261 HURSLEY ROAD, CHANDLER'S FORD, EASTLEIGH, SO53 1JQ					
Proposed work	2no. Oak (T1 & T2) - Crown lift to 5.2 metres above ground level by pruning tertiary branches only keeping live pruning cuts to a maximum of 75mm in diameter. Crown lift the lowest eastern branch growing over the carport by 4m above ground level by removing tertiary branches only keeping all live pruning cuts to a maximum of 75mm in diameter. Requested by Hampshire Highways.					
Assessment Date	30/12/2025					
Officer comments	TPO 282-E (G14) T1 and T2 are the 2 large oak trees are located in the front garden by the main road and offer a very high level of public amenity. They appear healthy. Some of the lower branches on the south-eastern side overhang Hursley Road and providing a vertical clearance requested by Hampshire Highways is therefore justified. The additional 4m crown lift by removal of the tertiary branches over the car port is considered a reasonable management of the trees in their environment and is not likely to cause any detrimental effect on the trees' long-term health and vitality. It will not affect the trees' public amenity significantly.
