Hi Darren,

Apologies I have been in Tenerife on holiday and only returned last night. I did not have access to my emails.

As discussed, HIWFRS will be happy with the access when the work is being carried out. As long as we can access the area's we need to then there will be no issues our end.

All I would ask is when the work is being carried out we are informed and this can be done through me, so I can update our Fire Control who can add it to the response plan to inform crews. I will also back this up with emails to all relevant stakeholders within our Service.

Kind Regards

Paul

Hi Paul,

Appreciate you are in a new role now since we talked about this, however I am being chased for a response.

Could you let me know ASAP if HIWFRS are happy with the proposed emergency access arrangements please?

Subject: Emergency Access to North East corner of SIAL

Hi Paul,

Thanks for your time today.

Please find attached the presentation for emergency access to the navigator quarter as discussed.

As part of the planning application we need to get confirmation from the emergency

services that they are happy with arrangements to access the site. There are two scenarios to take them through:

1. Route to site is clear whereby they use Mitchell Way which is to be extended in a cutting around the northern end of the runway into the site.
2. There is a blockage somewhere along Mitchell Way before the site in which case the mitigation would be to cross the runway and use Gate 8 or use the SW Car Park RVP and Gate 8 if the blockage was before Gate 11.

This contingency is for emergency services responding on blue lights only and not for general public if there is a blockage to the road.

Can you confirm in writing via email that you are happy with the proposed emergency access arrangements.

K Regards

Daz

Further to the below. I have spoken to the District Commander Chief Inspector Rachel Noble and she doesn't have any objections to this contingency plan of getting to the navigator Quarter.

Keep us updated with this and then we will amend our plans and inform our control room for emergency access for the future once work starts.

Kind regards

Lee

Morning Darren

Please accept our apologies of this delay.

We are very happy with the proposal for the emergency access to the site.

Would it be possible to be sent a map with the gate accesses listed as I haven't seen one and I unfortunately did not participate in the recent exercise.

regards

Subject: Re: Emergency Access to North East corner of Southampton Airport

Good morning Hollie,

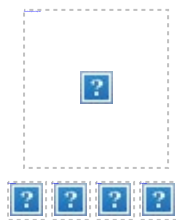

I hope you are keeping well?

I've still not had a response from Graeme on Ex CAUS feedback and the proposal for the Emergency Access to the North East corner.

The urgent bit is the Emergency Access proposal, is there anyone else that could look at this and send me a reply please?

Kind Regards

Daz

Afternoon Graeme

I'm at the HLOW WOT and Darren has asked me about the debrief report from SCAS that is outstanding, please can you reply to him.

He's sent over the questionnaire which i've attached.

Thanks

Hollie

Hi Hollie,

Could you look at the attached for me or ask Graeme if he has had chance to review and come back to me please?

This is quite urgent as it is part of the planning process.

Many Thanks

Daz

Morning Graeme,

Hope you are well?

Have you had chance to look at the emergency access arrangements below, I am getting chased for an answer from the project team. If you could confirm in writing, it would be appreciated.

K Regards

Daz

Subject: Emergency Access to North East corner of Southampton Airport

Hi Graeme,

As briefly discussed prior to Ex Casus starting on the 23rd.

Please find attached the presentation for emergency access to the navigator quarter as discussed.

As part of the planning application we need to get confirmation from the emergency services that

they are happy with arrangements to access the site. There are two scenarios :

1. Route to site is clear whereby they use Mitchell Way which is to be extended in a cutting around the northern end of the runway into the site.
2. There is a blockage somewhere along Mitchell Way before the site in which case the mitigation would be to cross the runway and use Gate 8 or use the SW Car Park RVP (gate 12A) and Gate 8 if the blockage was before Gate 11.

This contingency is for emergency services responding on blue lights only and not for general public if there is a blockage to the road.

Can you confirm in writing via email that you are happy with the proposed emergency access arrangements.

K Regards

Daz
