Description	Checked	Notes	Follow up required?
Tree protection measures located in accordance with TPP?	Y	See below	Yes
Any disturbance within construction exclusion zone?	Y	N/A	No
Any materials stored within construction exclusion zone?	Y	N/A	No
Any evidence of damage to tree roots, stems or canopies?	Y	N/A	No
Any works programmed before next planned site visit that may affect retained trees? (if yes, provide details)	Y	N/A	No
Notes: As can be seen from the photos below, the vast majority of the tree protection has been set up correctly and to a very high standard. The fencing along the northern, north-eastern and eastern sides (highlighted yellow) is due to be erected at the end of January 2026 (when new Heras fencing becomes available) and the red / white barriers along the site entrance are to be extended to include two other Oaks (exposed). Photographs will be provided as soon as this has been completed. The ground protection is to be laid just before work commences, and photographs will be provided as soon as this has been completed. As per the tree report, site visits and / or photos shall be provided every 4 weeks during commencement.
